DEPARTMENT OF CIVIL ENGINEERING

TITLE OF THE WORKSHOP: TWO DAY WORKSHOP ON "TOTAL STATION"

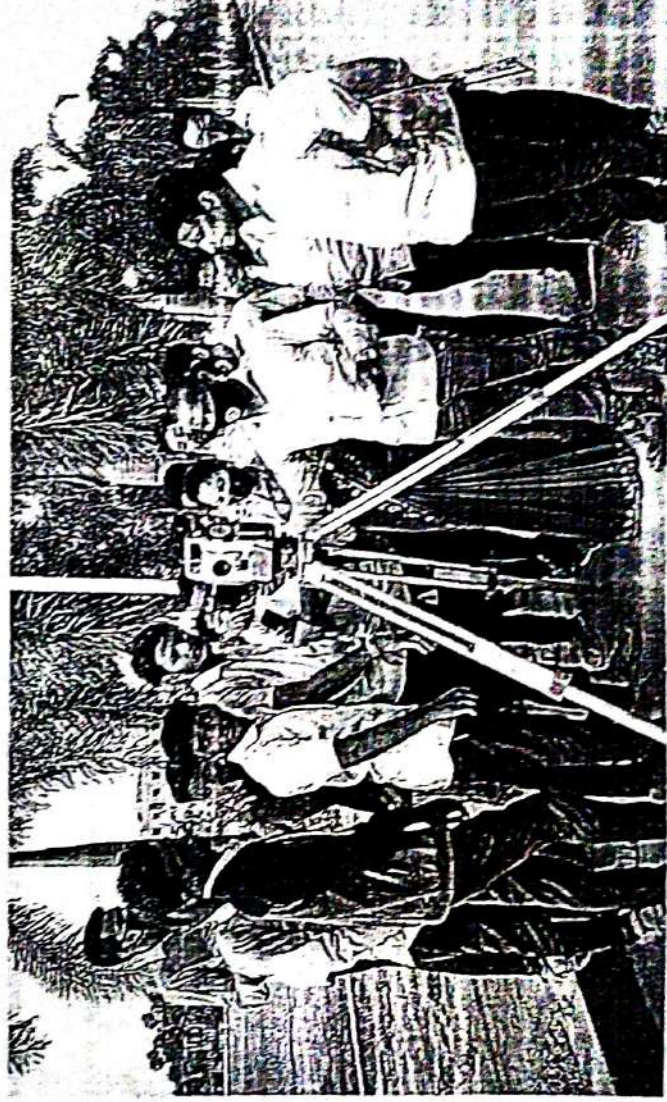

DATE AND VENUE: 15TH - 16TH DECEMBER 2020, SITAM COLLEGE

RESOURCE PERSONS: Mr. CH. Sai Saketh & Mr. N. Bhavani (COSECS Survey team), Lakshmi Engineering Consultants Pvt. Ltd.

FACULTY MEMBERS PRESENT: Mrs. M. Bhargavi & Mr. P. Sarath.

DAY - I

The department of Civil Engineering organized a two days workshop on surveying equipment Total Station for 3rd and final year students of Civil Engineering successfully from 15.12.2020 - 16.12.2020. This workshop provided the opportunity to the students to use Total Station. A total station or TST (total station theodolite) is an electronic/optical instrument used in modern surveying and building construction. The total station is an electronic theodolite (transit) integrated with an electronic distance meter (EDM) to read slope distances from the instrument to a particular point.

E-Mail: sitam@sitam.co.in

Website: www.sitam.co.in

The following are some of the major advantages of using total station over the conventional surveying instruments:

1. Field work is carried out very fast.
2. Accuracy of measurement is high.
3. Manual errors involved in reading and recording are eliminated.
4. Calculation of coordinates is very fast and accurate.
5. Computers can be employed for map making and plotting contour and cross-sections. Contour intervals and scales can be changed in no time.

For workshop students were divided into groups (10 students per group) and each group performed the task to use total station in the ground of SITAM campus.

Main purpose of workshop was to make students aware of Modern surveying instruments as they have subject of advanced surveying in their academics. Total station is advanced surveying instrument and largely used in field of civil engineering. Workshop on total station can give them practical operational exposure by experts.

DAY - 2

In the morning session of Day-2 expert shown topographical mapping and how to transfer total station data to PC, how to convert data to autocad file and from autocad file: how to measure area of that field survey

Overall the workshop was technically and practically sound and the long term expected result is to make students which will help them in building the path of their carrier.

CONCLUSION

Students were very satisfied with this workshop and got theoretical and practical exposure of total station. They also learned to operate the total station by individually having hand operations on total station.

This workshop was very fruitful and satisfactory to student's curiosity.

Thank you very much for your positive response to conduct workshop on DGPS for Civil Engineering students which will give them an update on latest technology development in surveying field.

We are proposing a two day workshop and the schedule will be as below

Day one : 10:00 am to 12:00noon PPT on working principles and application of Global positioning system.

12:00 noon to 12:30 noon questions and answers session

12:30 noon to 1:00 noon lunch break.

01:00 Noon to 3:00 pm Field work with PENTAX DGPS setting of GPS and configuration of base and rover.

03:00pm to 3:15pm break.

03:15pm to 5:00pm Configuration of RTK settings with radio modem and GSM Modem.

Day two : 10:00am to 11:30 am collecting field data with GPS using Base and Rover

11:30am to 11:45am Break

11:45am to 1:00noon Data collection in field with PENTX DGPS and stacking and locating the known values on ground.

01:00 noon to 1:30 noon lunch break.

01:30noon to 3:00 pm filed survey with PENTAX DGPS including static data collection

03:00pm to 3:15pm break

03:15pm to 4:30pm downloading data, post processing of field data and generation of drawings.

TITLE OF EVENT: Two Day Workshop on “Differential Global Positioning System DGPS”

DATE AND VENUE: 20th Sep to 21st Sep, 2021, SITAM COLLEGE.

RESOURCE PERSONS: Mr. K. Ramesh, Senior Manager, Lawrence and Mayo India Pvt. Ltd. and Mr. R. Gopi kishore, Technical Assistant (sales), Lawrence and Mayo India Pvt Ltd.

Day-1 Inaugural Session followed by presentation:

Department of Civil Engineering, SITAM, has inaugurated a “TWO DAY WORKSHOP ON DGPS (DIFFERENTIAL GLOBAL POSITIONING SYSTEM)” on 20th – 21st September, 2021 in SITAM campus.

Dr. M. Sashibhushana rao, Director, SITAM, Dr. D.V.Ramamurthy, Principal, SITAM, Dr. G. Ravi kishore, HOD, Department of Civil Engineering, SITAM, Resource persons for the workshop were Mr. K. Ramesh, senior manager, Lawrence and Mayo India Pvt. Ltd. and Mr. R. Gopi kishore, Technical Assistant (sales), Lawrence and Mayo India Pvt Ltd.

Faculty members of Civil Engineering Department, students of 3rd and final year have attended the inaugural session followed by a presentation by the resource person Mr. K. Ramesh garu regarding DGPS.

Differential Global Positioning System (DGPS) is an enhancement to Global Positioning System that provides improved location accuracy, from the 15-meter nominal GPS accuracy to about 10 cm in case of the best implementations.

DGPS refers to using a combination of receivers and satellites to reduce/eliminate common receiver based and satellite based errors reduce orbit errors reduce ionospheric and tropospheric errors reduce effects of SA eliminate satellite and receiver clock errors.

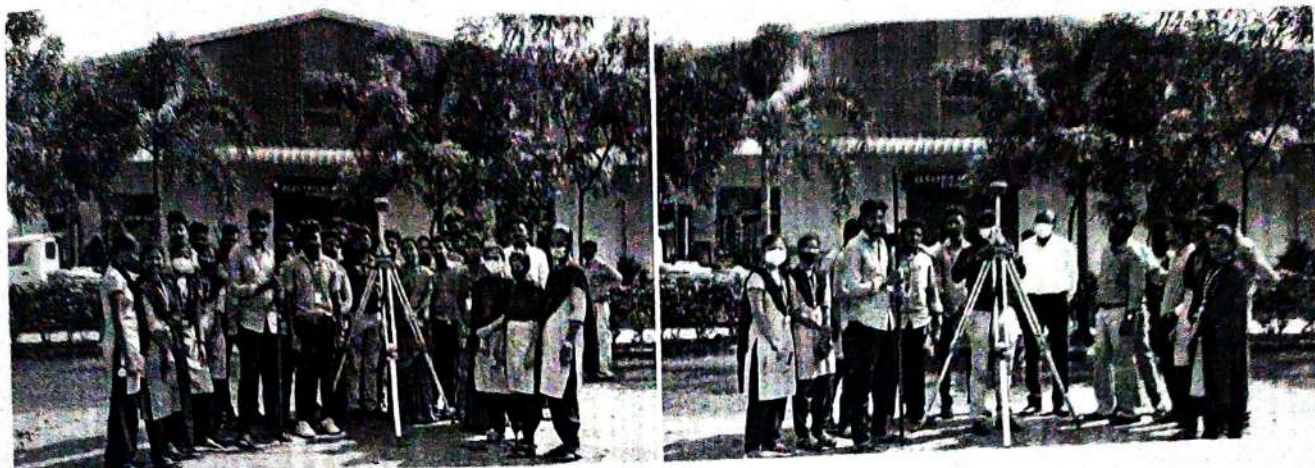

The GPS signal is made up of 3 distinct components: Carrier wave, GPS Code & Navigation message. Typical GPS receivers will use the GPS navigation message to calculate its position.

RTK uses the carrier wave of the GPS signal, which is 19.02cm long. By counting the number of cycles (and phase of the carrier), the travel time and distance can be measured more accurately.

In the afternoon session, students participated in the field work under the guidance of resource

person Mr. R. Gopi kishore garu, in the presence of faculty of civil engineering department, SITAM.

Day-2 Data collection in field:

Real Time Kinematic is an advanced form of DGPS which uses the satellites carrier wave to compare 2 observations from different receivers within the system, to fine tune the satellite and receiver clock errors, thus improving positional accuracy. Students were made to know about stacking and locating the known values on ground, field survey with PENTAX DGPS including static data collection.

Weather was nice with clear sun light. Survey pillar marking has been done before itself so it was easy to get the location point. After Practical session students were bring back to the class for another theoretical session. In the last session, experts showed how to transfer the data and also to convert the data.

Students were very satisfied with this workshop and got theoretical and practical exposure.

DEPARTMENT OF CIVIL ENGINEERING

TITLE OF THE WORKSHOP: ONE WEEK WORKSHOP ON "STRUCTURAL MODELLING USING REVIT - REVIT STRUCTURE"

DATE AND VENUE: 24TH - 29TH FEBRUARY 2020, SITAM COLLEGE

RESOURCE PERSONS: Ms. Anitha Ramya and Ms. K. Rohini Trainers from APSSDC

CHIEF GUEST: Dr. R. Rajeswarara rao, Vice Principal, JNTUK, UCEV.

The morning session started at the scheduled time of 10 am with welcome speech followed by prayer song. All the dignitaries and chief guest were called upon the dais. The Chief Guest addressed the gathering and suggested the students to learn more design softwares related to civil engineering.

The day has been started with importance of REVIT STRUCTURE and how it is used for designing structures by using REVIT software.

Afternoon session of the same day the trainer introduced basic tools and command of RIVET STRUCTURE and REVIT ARCHITECTURE followed by registering the students for the program.

On day 2 she taught students about drawing levels, grids and placing columns in the grids and viewing in 3D view.

The next day, ie., day 3, she taught students procedure for placing beams by joining the columns, grids and viewing in 3D view in different elevations.

The following day, ie., day 4, she explained students how to place reinforcement in beams and columns and placing slabs, slab reinforcement and adding walls in different levels.

The day 5 began with recap of all elements of the design and assigned different plans as projects to the students to complete the whole design process.

As part of last day of workshop she herself interacted with students one to one and clarified the doubts on design of various elements of structure. students practiced well the design procedures and a sample test also conducted to know the students skill enhancement during the entire week of workshop and the director sir examined the performance of students.

Certificates are distributed among the students participated for the workshop and the trainer get facilitated by the managements for his wonderful knowledge sharing, and the program ended with National Anthem.
