Principal
Satya Institute of Technology and
Management (SITAM)
Gajularega, Vizianagaram

and Infrastructure of the Institute is good for student's overall development

20. How well can you communicate and discuss your problems with teachers.

21. Give three observations/suggestions to improve the overall teaching-learning experience in your institution. (Some Notable Suggestions)

It could be more effective if we are taught about the something beyond academics regarding coding it will help in our placement selections

Very excellent teaching in college

- 1) Conduct mock interviews
- 2) Conduct Problem solving skills (coding sessions)
- 3) Awareness about internships and projects

Study hour is good idea. It is really helping us a lot.

All Faculties are good but teaching skills needs to be improved and needs more interaction with students

I'm satisfied with the overall teaching - learning experience in ours institution

Teaching is very good

Teaching is excellent

Library should be opened till 8PM.

Dr. D. V. Rama Murthy
Principal
Satya Institute of Technology and
Management (SITAM)
Gajularega, Vizianagaram

1. Teachers are maintaining friendly relation with students.
2. Institute should encourage the students to do the certification courses.
3. Institute should actively encourage students in sport activities, cultural activities.
4. Encourage students to think innovatively.

Everything good

Provide projectors in classes

1. PPT classes are better than oral classes
2. Don't focus on the completion of syllabus, better to focus on students to learn atleast 3 units completely

Improve self confidence in students

I think the teaching of the faculty is very good.
They are teaching us very well.
They are always trying their best towards us.

Teaching has to be improved

Improve digital classes on class room it will help to understand the subjects easily

1. Better to Implement digital classes for every subject
2. Teaching extra skill based programming language

Improve the digital teaching for certain subjects
Improve certain activities which are useful for internship and other

Discuss with students to learn more

Friendly teaching relationship with students

Want digital classes

Give notes to students

CRT classes should be start for 3rd year I think this is best for students.

Some faculty members teaches with the real life examples and practically

Need more cultural, sports and seminars

Overall it's a good institute
Staff are very co-friendly and well teaching

We need more experimental explanation in workshops

Improve lab equipments
Improve sports activities
Improve workshops

Improve lab equipment

1. We need practical examples
2. Give a class works, and exams and assignments questions

Reduce written work
Interact with students friendly nature
Guide the students, how to overcome future difficulties

Go practical rather than teaching. We want real time projects to improve our skills and want skill development programs along with theory

Teachers have to give some tips and suggestions to improve our skills and knowledge .

Students Washrooms are not good.

1. Use better graphics and visual media to engage students well. ...

2. Try to reach every student and ask for their doubts. ...

3. Make teaching a two way interaction

1) Implementing Interactive Learning Platforms

2) Facilitating Regular Feedback Mechanisms

3) Emphasizing Real-World Application

The process of teaching and learning is heading towards more digital learning, hope some concepts may covered using presentations.

More effective way of learning would be conducting quizzes every week on the topics covered in that week.

Tracking the progress - from the start of the semester to the end the student can be provided with a progress sheet, which covers what topics has been completed in present and past weeks in the classroom and also upcoming...which helps the students to plan the learning process more effectively.

1) syllabus should be all completed before mid 2..!

2) the university management needs to provide a proper gap of minimum 15 days like other big universities between mid 2 and semester for proper revision and preparation.!

3) the teacher's should be more prepared and scheduled for completion of the syllabus on time..!

I will request the my faculty

1) Please try discuss to innovate ideas and business skills not regarding to companies and organisations

2) These ideas are also coincide with the student methodology and thoughts

3) Try to better teaching to provide the business ideas without organisation

1. Monitor each student when taking the class whether he/she is interested in class or not

2. if he/she not interested in class then query that why they are not supposed to listen or interested in the class.

3. lastly make interaction with students to teach them even more effectively .

1. Manner of teaching is so wonderful and refreshing.

2. Patient and supportive

3. great at building confidence and keeping lessons fun and engaging through a variety of activities that improve conversation, writing, and reading skills.

Please give some more examples regarding the topics

Teachers should check whether students are learning or understanding the topic.

Conduct Seminar in Class.
