DEPARTMENT OF MECHANICAL ENGINEERING

INDUSTRIAL VISIT REPORT

Industry visited: HINDUSTAN SHIPYARD LIMITED, VISAKHAPATNAM.

Date of visit: 06-05-2023

Department of Mechanical Engineering has organised an industrial visit to **HINDUSTAN SHIPYARD LIMITED, VISAKHAPATNAM**, for second year mechanical students on 06-05-2023.

The purpose of the visit was to assess the shipyard's facilities, operations, and capabilities, as well as to gain insights into their contribution to the Indian maritime industry.

Introduction:

Hindustan Shipyard Limited (HSL) is one of the leading shipbuilding and repair facilities in India. Established in 1941, the shipyard has a rich history of constructing and maintaining various types of vessels, including naval ships, offshore patrol vessels, and merchant ships.

Facilities and Infrastructure:

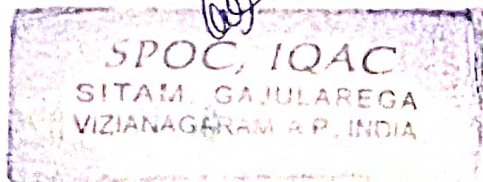

During the visit, I had the opportunity to explore the vast facilities and infrastructure at Hindustan Shipyard. The shipyard covers a sprawling area and is equipped with state-of-the-art facilities, including dry docks, workshops, warehouses, and fabrication yards. The dry docks were impressive, capable of accommodating ships of various sizes, allowing for efficient construction and repair activities.

Shipbuilding Capabilities:

Hindustan Shipyard has showcased remarkable expertise in shipbuilding. The shipyard has successfully delivered numerous naval vessels to the Indian Navy, including frigates, corvettes, and submarines. These vessels are built to the highest standards of quality and incorporate advanced technologies. The visit included a tour of the ongoing projects, where I observed skilled workers and engineers meticulously working on the construction of a new frigate.

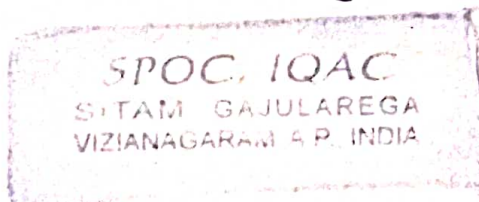

Ship Repair and Maintenance:

Apart from shipbuilding, Hindustan Shipyard has a commendable reputation for ship repair and maintenance services. The shipyard has dry docks, workshops, and facilities dedicated to servicing and refurbishing vessels. The visit included a visit to the repair section, where I
